Lloyd Wilbur,	Imlaystown.
TOTAL	80.

COURSE OF STUDY.

The Course of Study, embraced in three Departments, is designed to prepare youth to enter upon agricultural and mechanical pursuits, the mercantile profession, and a collegiate course at any stage of progress, and includes,

Spelling, Reading, Writing, Mental and Written Arithmetic, Geography, English Grammar, Civil and Natural History, Algebra, Geometry, Mensuration, Trigonometry, Navigation, Surveying, Natural, Mental and Moral Philosophy, Chemistry, Mineralogy, Geology, Botany, English Composition and Analysis, Rhetoric, Elocution, Logic, Political Economy, Book Keeping, the Latin and Greek Languages, the French and Spanish Languages, and Drawing.

Instruction in Composition and Declamation is given, weekly, to the pupils in the two higher Departments.

Lectures on Natural Science, illustrated by appropriate Apparatus, form a part of the course of Instruction, and are free to all the pupils.

Penmanship is taught upon a system recently introduced into the Institution, the principles of which, being in harmony with the structure of the hand and arm, and the laws of muscular action, do, when fully acquired, insure an easy and beautiful style of writing.

Elementary Instruction in Drawing is given to the pupils of the Primary Department, free of charge.

TEXT BOOKS

The following Text Books are used in this Institution:

Lovell's Juvenile Reading Books;
Lovell's Works on Elocution;
Saunders' series of Readers;
Vodges' Primary and U. S. Arithmetic;
Mitchell's Primary and School Geographies;
Hart's English Grammar and Constitution:
Hurd's Grammatical Corrector;
Willard's U. S. History;
Parley's Common School do.;
Worcester's General History;
Davies' Algebra and Elemental Geometry;
Day's Algebra and Higher Mathematics;
Olmstead's School Philosophy and Astronomy;
Silliman's Chemistry;
Comstock's Books of Natural History;
Newman's Rhetoric;
Paley's Moral Philosophy, by Valpey;
Kendall's Uranography;
Wayland's Political Economy;
Crittenden's Book Keeping;
Anthon's Latin and Creek Classics;
Anthon's Classical Dictionary;
Leverett's Latin Lexicon;
Liddell and Scott's Greek do.;
Lynd's Class Books of Etymology.

Geography is taught with the aid of outline Maps and the Globes.

PRICES OF TUITION:

The prices of Tuition are graduated to the studies pursued, as follows :

For the Primary Studies, - -	$4 00	per quarter.
For the Common English do., - -	5 00	"
For the High English do., - - -	6 00	"
For the Classical do., - - -	8 00	"
For the French or Spanish, (extra charge.)	5 00	"
For Drawing, - - - "	5 00	"

The School *quarter* consists of eleven weeks.

The Tuition is payable, quarterly in advance, to the Treasurer, CHARLES BURROUGHS, Esq., who issues tickets of admission.

The Primary Studies are Spelling, Reading, Writing, the Primary Arithmetic, and the Primary Geography.

The Common English Studies, are Spelling, Reading, Writing, the Larger Arithmetic and Geography, and English Grammar.

The High English Studies include the foregoing, together with Civil and Natural History, Algebra, Geometry, the Higher Mathematics, Natural, Mental and Moral Science, English Composition and Analysis, Elocution, Political Science, Book Keeping, &c.

The Classical Studies include any of the foregoing, together with the Latin or Greek Languages.

No extra charges for fuel or other purposes, than above stated, will, hereafter, be made.

SESSIONS AND VACATIONS

For the ensuing Academic Year.

The Academic year, consisting of 44 weeks, includes three sessions of unequal length.

The First Session will commence on the 1st Monday of September, and continue until the Saturday preceding Christmas, when there will be a vacation of one week.

The Second Session will commence on the 1st Monday of January, and continue until the Saturday preceding the 1st of April, when there will be a vacation of one week.

The Third Session will commence on the 2d Monday of April, and continue until the close of the Academic year in July.

The School quarter of each pupil is reckoned from the time he enters the Institution, no deduction being made for occasional absences.

It is *particularly* important that each pupil be present at the commencement of each session, and at the examinations.

A public examination of the pupils, in all their studies, takes place at the close of each session, and an exhibition in public speaking at the close of the Academic year.

GENERAL REMARKS.

In the re-organization of this Institution no efforts have been spared to place it on a level with the best Academies in the country.

The Academy edifice has been rebuilt, and furnished in the most tasteful and convenient manner; a good Apparatus has been added to the means of instruction; experienced teachers have been selected, and the successful experiment of the first year presents the most flattering prospects for the future.

It is the aim of the teachers to make their instructions in all branches, *elementary, thorough* and *practical;* to form in the pupil, by precept and example, habits of punctuality and order, propriety of speech and deportment, activity and industry; to instil into their minds sentiments of pure morality and religion; and, in all their instructions, to keep in view the truth, that the end of all knowledge is to make man good and useful in the various relations of *this* life, and to qualify him for a future state of happiness.

In the discipline of this Institution, the teachers depend, mainly, upon appeals to the reason and moral sentiment of the pupils, and endeavor to keep constantly before their minds high and honorable motives to action.

The co-operation of parents is earnestly desired, especially in securing punctual and regular attendance, each day, and a careful preparation for the daily recitations, which usually require from two to three hours study out of school.

Harmony of sentiment and action, on the part of parent and teacher, being essential to secure the complete ends of instruction and discipline, the teachers desire frequent interviews with the parents or guardians of their pupils, and invite them to visit the Academy as often as practicable.

A daily record of the attendance, punctuality, deportment and proficiency of the pupils, is kept by their respective teachers, and is always open for the inspection of visitors; and abstracts of which are sent to the parents or guardians monthly.

Pupils from abroad will be received into the family of the Principal, and will enjoy, as far as possible, the attentions and comforts of home; they will, also, be under the immediate eye and united supervision of all the teachers of the Academy.

Pupils residing in the vicinity of Trenton, can obtain their dinners at the house of the Principal.

The price of board is moderate, and will be made known upon application to the Principal.
